

Integration – Logical Design Document

Ardoq Services Offering

Define and document the logical design of your Ardoq integration with third-party applications to ensure clarity of requirements and alignment with Ardoq best practice.

What it is

A Professional Services consultant will work with your technical Subject Matter Experts (SMEs) to establish a logical integration design that maps Ardoq Components and References to another third-party application for the purposes of data exchange (in either direction).

Note: this service package does not include field-level mapping or data transformation rules, which will require a custom Statement of Work.

The Integration – Logical Design Document services offering consists of the following:

What you'll accomplish

- An agreed scope and design for one integration between Ardoq and a third-party application

What you'll get

- Discovery Workshop
- Design Workshop
- Logical Design Document
- Review & Acceptance Workshop

More information

- All services are delivered remotely unless otherwise communicated and scheduled. Travel and expenses incurred due to a request by the customer will be invoiced at cost.
- All services assume that the assigned Professional Services consultant(s) is granted access to the Customer's Ardoq instance.
- Customer will ensure that all relevant stakeholders are identified and available to participate in workshops, answer questions and otherwise assist Ardoq Professional Services in the completion of the activities.
- Project documents will be shared with Customer via email or other mutually agreed mechanisms and will be deemed accepted by Customer unless notification is received within forty-eight hours highlighting why acceptance is not given.
- All modules must be completed within twelve months of purchase, otherwise they will expire and any unused activities or deliverables will be forfeited.
